OB2 Move: Frequently Asked Questions

1. **Is the OB2 Move driving the Shared Services initiatives so that agencies move to virtualized services?**

   The Shared Services initiatives are operating in parallel with the OB2 Move. The Shared Services that are implemented prior to the OB2 move beginning will be moved into the State Data Center (SDC).

2. **What should the À la Carte customers in OB2 plan to move?**

   À la Carte customers should plan on moving their environments that will be in place as of spring 2011.

3. **What will be the role of DIS in this move?**

   DIS will procure the services of a Systems Integrator (SI) that will lead and plan the OB2 move. The SI vendor will provide expertise to facilitate the detailed planning and coordination with impacted agencies.
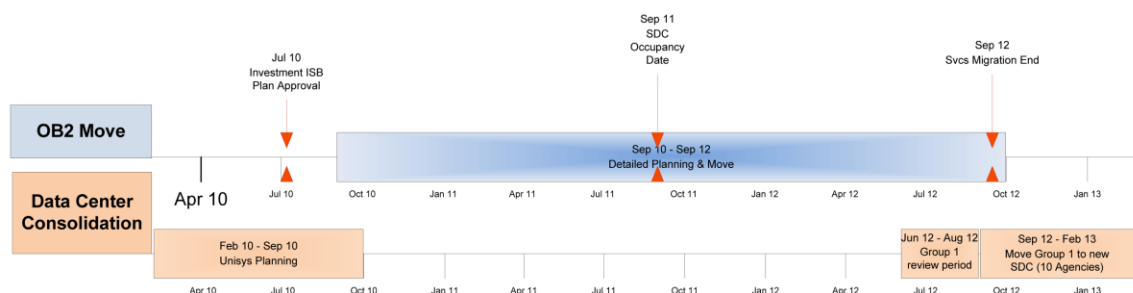

4. **What will be the role of the À la Carte customers in this move?**

   À la Carte customers will provide the business, technical and operational experts from their agency to participate in planning and executing the move with DIS and the SI vendor's guidance. Agencies will assume primary responsibility for their move planning.

5. **What is the difference between the OB2 Move project and the Data Center Consolidation project?**

   DIS has contracted with INX, Inc. to create an Implementation Plan for the OB2 Move and they will be leading the data collection efforts with OB2 customers. The OB2 Move project will move services from OB2 into the new State Data Center (SDC). The Data Center Consolidation project is focused upon moving other data centers in Thurston County into the SDC after the OB2 Move project is completed.

   A representation of their timelines is included below.
